Refurbished vs new Dell

An honest comparison, from a company that sells both

POSEIDON NETWORK SYSTEMS
SEA POINT • CAPE TOWN

We sell both refurbished and new Dell, so we have no reason to push either. Here's an honest comparison to help you choose for each person in your office.

1. Side by side

	Refurbished Dell (business models)	New Dell
Price	Much lower. Laptops from R5,000 excl. VAT.	Higher, depending on the model and specification.
Condition	Factory reconditioned and tested. May show light signs of use.	Brand new.
Windows	Windows 11 installed: Pro on most models, Home on some desktops. Check each listing.	Windows 11 Pro or Home, depending on the model ordered.
Warranty	1 year.	Dell's standard warranty for the model, with options to extend.
Performance	Business-grade processors from recent years. Ideal for everyday office work.	The latest processors. Best for heavy or specialist work.
Battery	Used battery, covered for 6 months under our warranty terms. Ask us about battery health on a specific unit.	New battery.
Lifespan ahead	Fewer years ahead than a new machine.	The longest working life.
Choice	Limited to what's in stock. Models change often.	Choose the exact specification.
Delivery	In-stock units delivered within 40km of Cape Town.	Ordered in. Lead time depends on the model.

2. When refurbished is the smart buy

- Everyday office work: email, documents, spreadsheets, accounting software, browsers and video calls.
- Replacing PCs that can't run Windows 11, without paying new prices for every desk.
- A spare laptop kept ready, so one broken machine doesn't stop someone working.
- New staff, temporary staff and reception or admin desks.

3. When new is worth the extra

- Heavy work: design, CAD, video editing or large data sets.
- Someone who'll use the machine all day for five years or more, and wants the longest life.
- When you need a specific specification, or matching machines for the whole team.
- When a longer warranty or on-site warranty matters to your business.

4. Quick decision guide

Person or desk	Our usual suggestion
Reception, admin, bookkeeping	Refurbished
Sales and staff on the road	Refurbished (ask about 4G LTE on the Latitude 5400)
Managers and senior staff	Either: new if they keep machines for years
Design, CAD, video	New
Spare or backup laptop	Refurbished

Not sure which fits? WhatsApp 062 788 3650 with how many people and what they do, and we'll suggest the right mix of refurbished and new, with prices.
